# Introducing Kastel and Una

A lounge collection inspired by shape, flow, and intention.

Named after manmade and natural sites in Europe, Kastel lounges and Una ottomans balance versatility with comfort.

Kastel takes cues from the medieval Kastel Fortress, designed to stand alone or connect seamlessly, transitioning easily from lounge settings to dining configurations.

Una, named after the Una River, is our first ottoman—adaptable, fluid, and available in three sizes, with larger options convertible into coffee tables through removable acrylic mirror tops.

Both Kastel and Una are offered in a range of colors through premium removable velvet covers.
